Ankara

1/7

The Ankara collection designed entirely by David Fox.

Drawing upon the experience gained over the years, Design Chair Sofa improves its creativity in new directions.

Ankara, one of the Design Chair Sofa collection, is an example of harmony between simplicity and contemporary. To innovate while staying loyal to the company's design language embraces the idea of nature and living spaces. The design mentality for the Ankara collection goes well beyond the brilliant execution of a stylistic exercise. It is the evolution of an intuitive idea into a complete product.

David Fox

A sophisticated aesthetic style that finds itself in the choice of exclusive materials and exciting combination—wood, marble, fabric or leather with various textures and colors. The perfect dimensions of the collection maintains a good posture with its sleek design.

A singularly sophisticated armchair performs a different aspect with its flowing side edges. Different edges in the collection project that express a modern approach to classicism.

The leather linings in the collection constitute interlanguage and also establishes perfect balance between the classic and the modern, totally coherent with the distinct identity of the company. Unit-ing these two opposite feelings, accomplishes the purpose to shine each of them by using the contrast.

Eoton

2/7

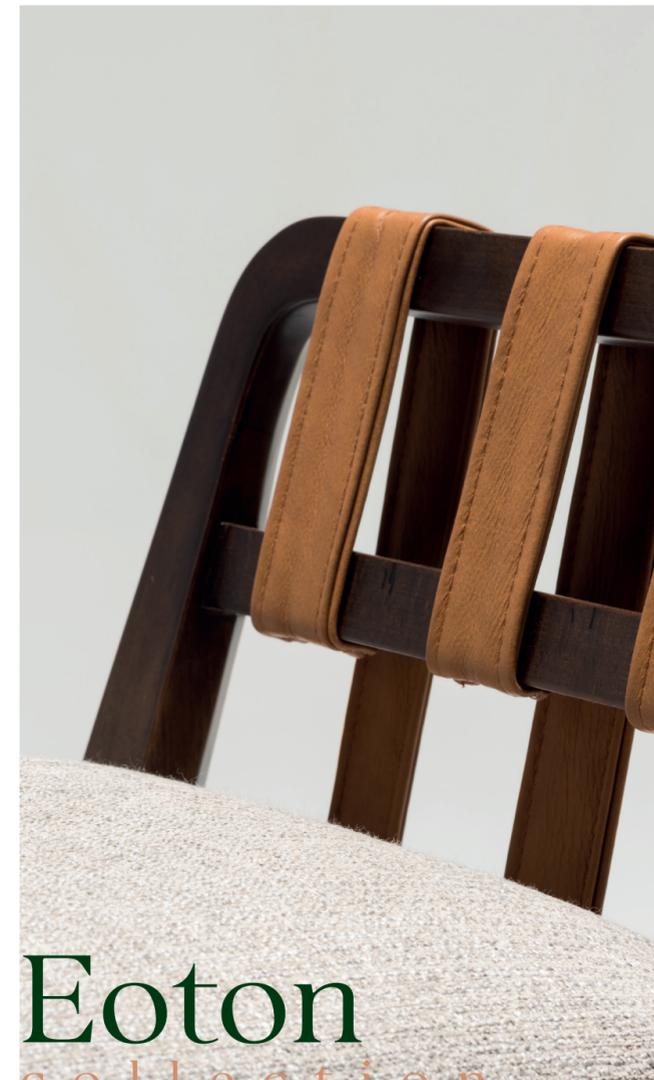

The Eaton Collection exclusively designed by Rana Alper. The inspiration comes from the desire to create a collection with adaptable pieces that would build a feeling of freedom's passion.

The design communicates the spaces and contemporary feeling together the mood of the collection echoes some of the movement, like the details on the feet of the sofa.

The back corner CNC parts bring together other structural parts of the sofa. These parts help the sofa's main structure which is 3 parts: to be easily installed.
